

Lithium-ion 18650 battery, protected, 3350mAh

EG-BA-18650/3350

- PROTECTED: The integrated safety board protects the cells against overload, short circuit and deep discharge, so the battery is better protected against incorrect usage, which guarantees a longer lifetime without worries.
- VERSATILE: Perfect for use in a wide range of high power devices.
- DURABLE: Low self-discharge and good for many charging cycles. Because of the low self-discharge, the battery will keep its energy for a long time, even when not in use

Features

- 3.7 V rechargeable Lithium-ion 18650 battery
- Provides long lasting energy with very low self-discharge
- Integrated protection PCB protects against overload, short circuit and deep discharge
- Suitable for use in e.g. LED torches, laser pens, etc.
- Note: because of the protection PCB the battery is approx. 3 mm longer than most unprotected 18650 Li-Ion batteries.

Packaging

Q'ty in crtn, pcs	180
Crtn volume, CUM	0.037
Crtn weight, kgs	11.18
Individual package size LxWxH:	70x128x25 mm
Carton size LxWxH:	240x615x250 mm
Country of origin	CN
Barcode	8716309122368
Customs code	8507500090

Specifications

Nominal voltage: 3.7 V
 Capacity: 3350 mAh
 Over-charge voltage limit: 4.3 ±0.05 V
 Over-discharge voltage limit: 2.4 ±0.1 V
 Continuous discharge rate: 3.0 A
 Max. peak discharge rate: 5.0 A
 Operating temperature: charge 0~45 °C, discharge -20~60 °C

Storage temperature: -20~45 °C
 Storage voltage: 3.7 3.85 V
 Maximum constant charging current: 2000 mA
 Dimensions: diameter 19.5 mm, height: 70.5 mm
 Net weight: 50 g
